

EUCOTHERM

Designer Radiators for Room and Bath

March 2021

Designer Radiators for Room and Bath

Eucotherm have been manufacturing designer radiators for over 20 years, offering radiators for living and bathrooms.

The product range shows that we are at the forefront of innovation and design. The excellent manufacturing quality means we can offer a 10 year guarantee.

Eucotherm now have a UK distribution centre in the midlands holding over 10,000 of the most popular radiators. All radiator prices include delivery and can be delivered on a next day basis if required. Non stocked sizes will take around 6-8 weeks to deliver.

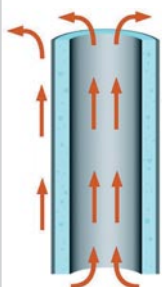

ORDER BY 5PM

day delivery

Find your BTU (British Thermal Unit) rating

To calculate the average BTU rating for any particular room use the following:

$$\text{Width (ft)} \times \text{Length (ft)} \times \text{Height (ft)} \times 4 = \text{BTU Rating (Average)}$$

(1kW = 3413 BTU)

- High heating performance thanks to maximisation of the convection principle (chimney effect)
- Minimised water-content means faster warm-up times and energy consumption
- Special process for plastic-coating of outer and inner surfaces
- Tube-in-tube design provides greater heating surface area

Only applies to Vulkan and Supra

Mars Vitro Picture Glass Picture Radiators

Want to use your own picture?

Eucotherm customers can put their own image onto the radiator. The image must be around 10-12 megapixels in size. Photos taken on most smartphones are not good enough quality. For more image ideas please take a look at www.shutterstock.com*. There are more than 25 million images available. When choosing an image please remember the shape of the radiator. Images will be cropped to fit if they are too wide. A visual proof is provided as part of the service.

*Eucotherm have an account with Shutterstock.

584mm	White	£83
584mm	Anthracite	£97

Infrared Radiator Accessories

Stand Support

- Allows free standing of the standard infrared radiator on the floor

 Aluminium

Price (Ex Vat)

£42

* Only works with standard infrared radiator

Towel Rail

- 600mm Towel bar to fit standard infrared radiator

 Aluminium

Price (Ex Vat)

£47

* Only works with standard infrared radiator

Ceiling Mounting Set

- Fittings required to fit the infrared radiator to the ceiling

Price (Ex Vat)

£39

Central Connection

- Add a central connection (valve extra)

Price (Ex Vat)

£69

Bespoke Radiator Guide

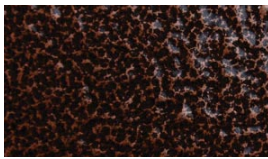

Bespoke size and colour service

Eucotherm have a bespoke size, colour and special textured finish service. All finishes are powder coated and orders for special sizes, colours and finishes take around 6-8 weeks to be delivered. The following pages list the sizes and prices of all white radiator options as standard. For our bespoke colour service we use the RAL colour system and special orders with a chosen RAL colour will incur an extra 20% surcharge on top of the white radiator price. Orders with special textured finishes will incur an extra 30% surcharge on top of the white radiator price.

@Marc_Radiators

You are what you heat

It is the LAW that radiators and convectors installed in heating systems in UK buildings conform to the **European Standard BS-EN442**.

Products that conform will have a **CE** mark.

The **Manufacturers Association of Radiators and Convectors, MARC**, are launching a campaign; 'You are what you Heat' to ensure that consumers are aware of the importance of having quality, CE marked radiators installed in their home. Installing radiators that do not conform to CE marking could result in cold, expensive and inefficient homes.

For more information visit www.marcuk.com

MARC members' products, 'do what it says on the box'!

Buying the right radiator for your home
Consumer guide

Eucotherm are MARC members and their BTU rates are tested and verified. Beware of brands which give false values as nobody wants a cold room!

For more information please contact us on:

Tel: **01530 563820**
