Calculator interface showing basic arithmetic operations like addition, subtraction, multiplication, and division with numerical inputs and results.

Calculator interface showing trigonometric functions such as sine, cosine, tangent, and their inverse functions, along with degree and radian modes.

Calculator interface showing integration and differentiation functions, including definite and indefinite integrals and derivatives.

Calculator interface showing matrix operations, including matrix addition, subtraction, multiplication, and determinant calculation.

Calculator interface showing system of linear equations (SLE) solver for 2x2 and 3x3 matrices.

Calculator interface showing polynomial operations, including addition, subtraction, multiplication, and division of polynomials.

Calculator interface showing complex number operations, including addition, subtraction, multiplication, and division of complex numbers.

Calculator interface showing inverse trigonometric functions like arcsin, arccos, and arctan, along with their range and domain.

Calculator interface showing trigonometric identities and formulas, including double-angle and half-angle formulas.

Calculator interface showing trigonometric functions in different modes (DEG, RAD, GRAD) and their corresponding ranges.

Calculator interface showing the derivative of various functions, including trigonometric and algebraic expressions.

Calculator interface showing the integral of various functions, including trigonometric and algebraic expressions.

Calculator interface showing trigonometric functions and their inverse functions in a different layout.

Calculator interface showing trigonometric functions and their inverse functions with additional settings.

Calculator interface showing matrix operations and solving systems of linear equations (SLE) for 2x2 and 3x3 matrices.

Calculator interface showing matrix operations, including matrix multiplication and determinant calculation.

Calculator interface showing system of linear equations (SLE) solver for 2x2 and 3x3 matrices.

Calculator interface showing polynomial operations, including addition, subtraction, multiplication, and division of polynomials.

Calculator interface showing complex number operations, including addition, subtraction, multiplication, and division of complex numbers.

Calculator interface showing basic arithmetic operations and simple algebraic calculations.

Calculator interface showing trigonometric functions and their inverse functions.
